SCOIL FIONNTÁIN NAOFA

SCHOOL PATHWAY FOR COVID-19 KEY POINTS

- 1. The response to confirmed cases or outbreaks of Covid-19 in the community or in a school is the responsibility of and will be led and managed by Public Health HSE. All decisions as to appropriate actions following a confirmed case or outbreak will be made by their teams in the context of a full Public Health Risk Assessment procedure according to the principles set out in the document attached. Any actions to be taken by the school will be communicated directly by Public Health HSE. School management will be informed as and when such actions such as exclusion of children or staff; partial or full closure, are deemed necessary on public health grounds. If the school is not so informed, it has not been deemed necessary by Public Health.
- 2. It is inevitable that with confirmed cases of Covid-19 circulating within the community, there will be suspect or confirmed cases amongst pupils and staff attending, or working within, educational facilities.
- 3. However, children will also continue to display symptoms of many other circulating respiratory viruses. It is known that young children often have a persistent cold. A child with a blocked or runny nose, but no fever can attend school but if they require paracetamol or ibuprofen, they must stay at home for 48 hours and parents or guardians should contact the GP to assess whether a test is required.
- 4. If a child displays symptoms which may be consistent with Covid-19, the school should contact their parent or guardian and ask them to collect their child as soon as possible. The child should be cared for appropriately by a staff member whilst they are waiting to go home.
- 5. 'Schools do not need to inform parents that a pupil or teacher has been removed due to their symptoms. Other pupils or staff do not need to be removed from class. HSE Departments of Public Health will take action if the person has confirmed Covid-19 infection on testing, which will include HSE advice and guidance on communication to school pupils and staff where needed.'

- 6. 'The parents / legal guardian of the sick child should contact their GP as usual, to discuss clinical concerns. If it is determined by the GP that the child/pupil requires to be tested for Covid-19, any other household contacts should be removed from the school setting.'
- 7. 'If a symptomatic child has a Covid-19 'not detected' result, the child should remain at home until he/she is clinically well enough to return to school, unless parents are specifically asked by HSE Public Health for their child to remain excluded because of other investigations e.g. if the child is a known close contact of a now confirmed case. In particular all diarrhoea symptoms need to have been resolved for 48 hours prior to return to school.
