

Step 2 Technology

Plaque of STEM Award

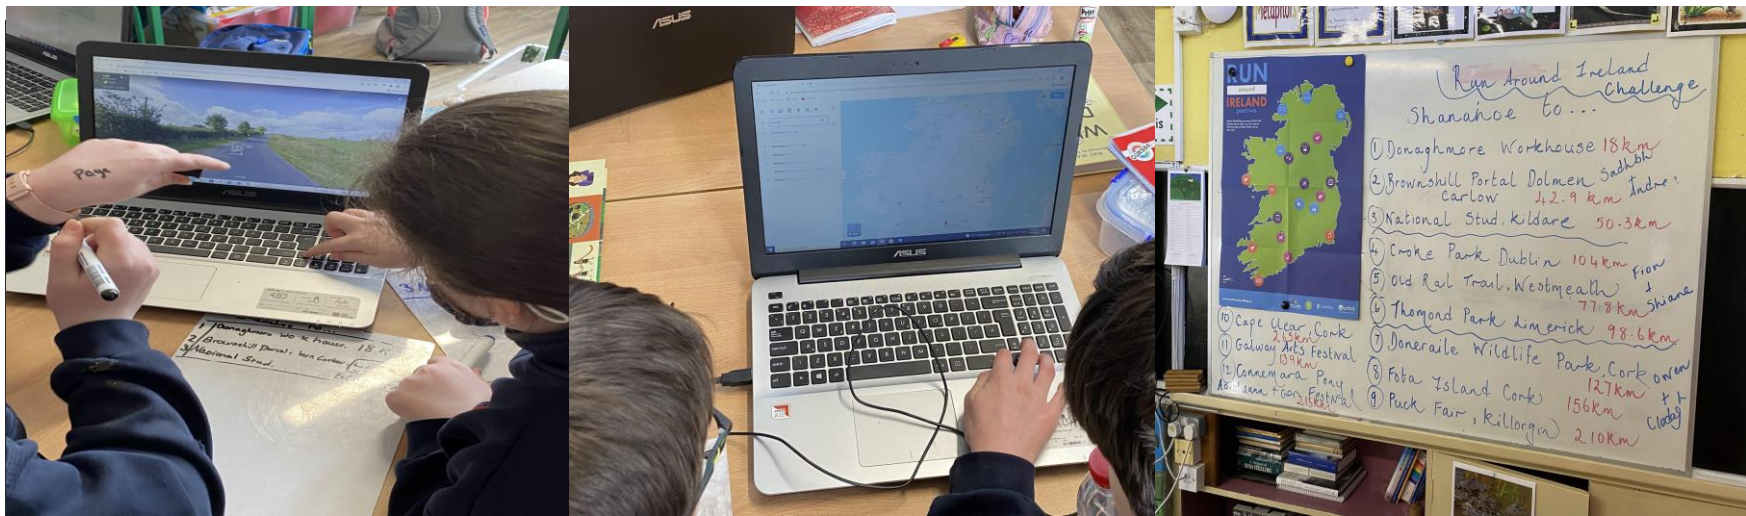

STEP 2 Technology

The pupils used Britannica Schools on Scoilnet to conduct research for report writing on European Capitals, as part of their participation in the 'Blue Star' project on the European Union.

Plaque of STEM Award

STEP 2 Technology-Google Maps and Active Schools

We used Google Maps to calculate the distance from Shanahoe to all of the different locations in Ireland as part of the 'Run Around Ireland Challenge' for Active Schools.

Plaque of STEM Award

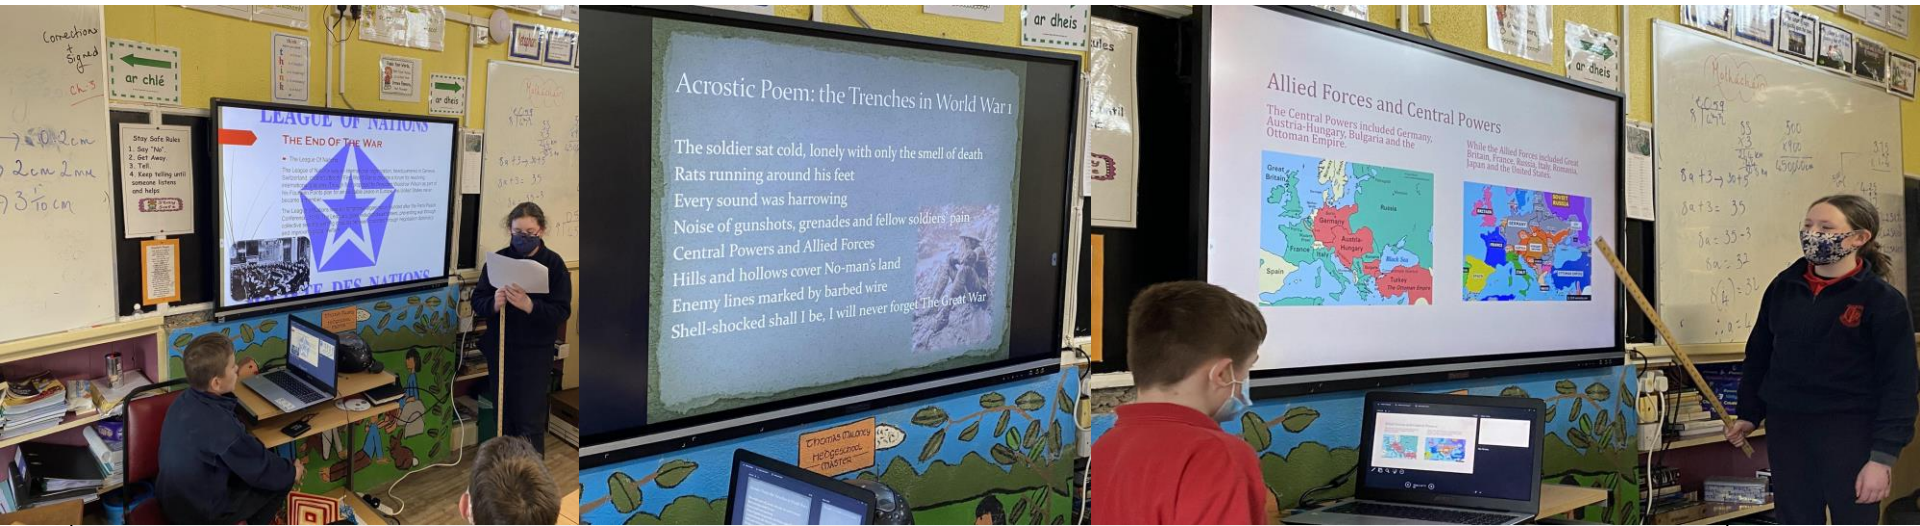

STEP 2 Technology-PowerPoint Presentations on France

5th & 6th class conducted research online, prepared high quality PowerPoint presentations on France and presented them in a lively & engaging manner as part of their participation in the 'Blue Flag' programme on the European Union.

Plaque of STEM Award

STEP 2 Technology-PowerPoint Presentations on World War 1

5th & 6th class conducted research online and prepared and presented high quality PowerPoint presentations on World War 1, having studied the topic in History. This also integrated with the Historical element of their participation in the 'Blue Flag' project on the E.U.

Plaque of STEM Award

STEP 3 Engineering & ICT VEX Robotics

The Senior Room worked with Vex Go LEGO sets to create different machines & devices during Engineers' Week. They also linked their Engineering Work with ICT by programming what they had created using the Vex Coding Software, which they found was quite similar to Scratch.
